Community Mitigation Assistance Team (CMAT) Annual Application Period

PROCESS :

APPLICATION STEPS

1. Convene your partners, including your local U.S. Forest Service representative
2. Review the Enabling Conditions together
3. Review the body of the application and complete each section together
4. Select a point of contact/representative who will coordinate this request and sign the form.
5. Submit this form to: sheryl.page@usda.gov and hannah.thompsonwelch@co-co.org

ENABLING CONDITIONS

- Community:
  - The community applying for CMAT assistance is at high risk of wildfire and has identified a mitigation challenge that warrants Team assistance.
  - There is an existing wildfire mitigation partnership or high interest in creating one that is designed to implement the full suite of community fire adaptation practices.
  - Pertinent local, state, and federal partners have the capacity and desire to work closely with the Team during the assignment and to implement resulting recommendations including follow-up reporting of accomplishments.
  - Scope of the project should have a high likelihood of short- and long-term return on investment to justify cost to deploy a team.
- Local Leader in the U.S. Forest Service
  - A local leader in the U.S. Forest Service, as the ordering authority, must provide or coordinate a working location, internet access, and support for the CMAT during deployment.
  - Ordering unit will communicate and coordinate with participants throughout the assignment, acting as the POC between the Team and community.

What Community Mitigation Assistance Teams DO:

The Team uses various engagement techniques and tools, one-on-one interactions, mentoring, mini-workshops, Community Wildfire Protection Plans (CWPPs), risk and fire occurrence maps, home assessments, pertinent research, demographics, experience, and close community collaboration to help communities move mitigation forward.

Before and After a Wildfire: CMAT collaborates with local partners, the Forest, and community leaders to identify and resolve mitigation challenges and build sustainable mitigation efforts using best practices focused on action on the ground. This might include:

- strengthening partnerships
- community engagement
- collaborative analysis of barriers and opportunities
- training
- coalition building
- mitigation planning

During Incidents: CMATs work closely with Incident Management Teams, the Forest Service or other land management agencies, community residents and leaders to provide mitigation support and guidance during an incident. The window of opportunity, while smoke is in the air, provides a priceless teachable moment when community members experience the immediate importance of mitigation and are ready, willing, and able to take action on both an individual and community level.

Reminder for consideration: Community Mitigation Assistance Teams DO NOT provide wildfire prevention messaging or product development; produce literature (other than the collaboratively developed Mitigation Action Plan); or perform the work of the community/ordering authority.

Community Mitigation Assistance Team (CMAT) Annual Application

1. Please provide your community's details below.

Community/Jurisdiction Name:

Address:

Nearest public land management agency (ie: USFS, NPS, BLM, etc.):

Name of person requesting:

Phone: Email:

2. Describe your communities' wildfire hazards and risk.

3. Provide link(s) to documentation which describes the relative risk listed above.

4. What specific wildfire mitigation issues can a CMAT help to address?

5. Can the requesting unit provide a work location with internet access and support for CMAT during assignment?

☐ Yes ☐ No

Work Location Agency and Unit:

Work Location Point of Contact (POC) Name:

Position/Title: Email:

Office Phone: Mobile Phone:

6. Is there a local wildfire mitigation coalition dedicated to helping the community adapt to wildfire?

☐ Yes ☐ No

If yes, who is on the coalition? (Check all that apply)

- ☐ Fire Departments
- ☐ Residents
- ☐ Local non-profits
- ☐ Business leaders
- ☐ Emergency managers
- ☐ Utilities
- ☐ Federal land management agency/s
- ☐ State land management agency/s
- ☐ County land management agency/s
- ☐ Environmental/conservation groups
- ☐ National environmental groups
- ☐ Others

If no, coalitions and partnerships working together are an important element to fire adaptation. Please explain why no partnership exists.

7. What community fire adaptation work has the local wildfire mitigation coalition accomplished in the last two years? **(Check all that apply)**

- ☐ Created a CWPP
- ☐ Updated a CWPP
- ☐ Formed a local fire department
- ☐ Provided disposal site for brush
- ☐ Helped low income/elderly harden home
- ☐ Helped low income/elderly create defensible space
- ☐ Other:
- ☐ Fuel reduction on private land acres
- ☐ Fuel reduction on public land acres
- ☐ Assessments of structures
- ☐ Hardened structures
- ☐ Defensible space structures
- ☐ Follow-up on structures

8. Are coalition partners willing to work closely with the CMAT during the assignment, implementing resulting recommendations, and provide follow-up accomplishment reporting? ☐ Yes ☐ No

9. How many hours can the coalition members/participants commit during a CMAT assignment?

10. How many hours can the coalition members commit for follow-up work?

11. What time period are you requesting a CMAT for? Indicate first choice and second choice below.

Immediately

January	July
February	August
March	September
April	October
May	November
June	December

12. Please provide, as an attachment to this application, a list of local wildfire mitigation coalition members and their respective contact information. Please ensure the contact list is shared electronically as an MS Excel spreadsheet and contains the following information:

- Full Name
- Affiliation/Organization Name
- Position/Title/Role
- Current Email
- Primary Phone Number

A contact list, in the form of an MS Excel spreadsheet, accompanies this form. ☐ Yes ☐ No

The contact list contains the above-described information for each contact? ☐ Yes ☐ No

All individuals on the contact list are: (a) aware that their name and contact information has been listed and (b) are supportive of this CMAT Request and (c) will participate. ☐ Yes ☐ No

I, , have read and understand "What Community Mitigation Assistance Teams Do", attest that I have vetted this Request Form with my mitigation partners, and certify that this request is, to the best of my knowledge, complete and accurate.

Applicant Signature: Date:
